"Our headquarters has transferred from Jaro to Palo. So I use to stay now in Palo. You know I don't stay in a permanent place I go from one town to other towns. As I am connected with the Intelligence Division we've got to go to any place we want. But we use to go back to Palo after 2 or 3 weeks from inspection tour. I don't have any manual labor at all. I'm always dressed very well. Sometimes I do the interpreting, investigating and if we don't have anybody to be investigated I only go around and hear anything I can inform them. My work is like the work of Mr. Abella. I received a regular salary of P60.00 a month. Sometimes I received all in all around P180.00 a month. But my average per month is P150.00 a month. But I spend a lot here. Cigarettes and eats are very dear here. Cigarettes is P.80 a piece here. Of course my board and food is free. I can sometimes buy a few pieces of clothes. Even now I got five pairs of shoes now. I got my friends from all the towns I've some. They use to approach me in the cases connected with the army. They have learned to like me. They always ask me what I need."
